

PROTECT THE FORENSIC INTERVIEWS LIKE YOU PROTECT THE KIDS

Vidanyx cares deeply about protecting children and supporting Child Advocacy Centers. It protects forensic interviews to bring peace of mind, efficiency and cost savings to CACs and their multidisciplinary partners.

Multidisciplinary teams across the country are using Vidanyx to securely view, share and store forensic interview videos, powered by the ease and security of the cloud. Created for and with CACs, Vidanyx features automatic transcriptions, digital chain of custody, military-grade security, video annotations, watermarking and more.

No installs, no downloads, no stress.

What is Vidanyx?

Vidanyx provides a secure cloud-based solution for Child Advocacy Centers to view, share, manage and archive forensic interview videos.

It was built from the ground up as a collective effort working with the National Children's Alliance, and an advisory council of expert attorneys, forensic interviewers, therapists, the FBI, prosecutors, Child Advocacy Centers across the U.S., government officials and philanthropists.

TRANSFORM OPERATIONS WITH SECURE & RELIABLE CLOUD TECHNOLOGY

Reduce unnecessary travel: No need to manage DVD pick-up logistics for MDT members or mailing, driving or running discs across your region.

Not the custodian of record? No problem! VidaNyx offers *Transfer of Custodianship* to make a digital hand-off to law enforcement, prosecution or CPS to manage access control if that matches your protocol.

Works with low bandwidth: VidaNyx has been tried and tested at extremely low bandwidths so it can work even with unusually low internet speeds.

No installation required: No hardware or software installs are required! Internet access with a current browser like Chrome or Firefox along with login credentials gets authorized users access to VidaNyx.

Reduce cost & save time: Forensic interview videos can be shared securely through VidaNyx. Getting the video peer-reviewed or sent to law enforcement no longer comes with shipping costs or logistics. Closed Captioning and transcripts are automated too!

Free up office space: Upload past years' videos to VidaNyx and free up precious space in your CAC. Imagine the old video storage room as an office, rec room or training center.

- Right-sized licensing based on need for active & archive storage
- 1 license per CAC with no additional per-seat fees for MDT members or individual access
- Visibility and input into the development of new features
- Renewable on a yearly basis

For pricing for the unique needs of your CAC, go to www.vidanyx.com/calculator

"The VidaNyx technology is so needed. We are grateful for the innovation to solve a critical problem faced by child advocacy centers in safeguarding the outcry and disclosure of abuse of our nation's children."

- **Gene Klein, Executive Director, Project Harmony, Omaha, NE**

"The need in the Children's Advocacy Center movement for an innovative product to safely manage and store forensic interview recordings is crucial."

- **Teresa Huizar, Executive Director, National Children's Alliance**
